THE SEED AND THE SOIL

In nature, healthy growth begins with fertile soil.

Female Fertility Support HG represents the soil within the Seed and Soil Fertility Range - providing nourishment, balance and support for female wellness and vitality.

Paired with **Male Fertility Support HG**, the seed, these two formulations honour the natural partnership found throughout nature: healthy seeds and fertile soil working together to support new beginnings.

Inspired by traditional herbal wisdom, **the Seed & Soil Range is designed to support both partners on their journey towards reproductive wellness.**

KEY BOTANICAL INGREDIENTS

SHATAVARI (*Asparagus racemosus*)
One of Africa's most respected Ayurvedic women's wellness herbs. Traditionally used to support female reproductive wellness and overall wellbeing.

MACA (*Lepidium meyenii*)
Traditionally used to support vitality, stamina, energy and endurance. Compliments Shatavari with strong vitality support.

RED RASPBERRY LEAF (*Rubus idaeus*)
Value for its long history of use in women's wellness programmes. Supports women's wellness across reproductive years.

VITEX (*Vitex agnus-castus*)
One of the most recognised herbs in women's health. Traditionally used to support female hormonal wellness. Compliments the reproductive focus of the blend.

ASHWAGANDHA (*Withania somnifera*)
Traditionally used to support stress resilience and vitality. Compliments the vitality herbs.
