WHAT IS MALARIA?

Malaria is a mosquito-borne infection caused by parasites of the Plasmodium species, most commonly transmitted by the Anopheles mosquito.

Common symptoms include:

- Fever with chills and sweating
- Headache
- Body aches and fatigue
- Nausea and vomiting
- Loss of appetite

Malaria can range from mild to severe. Early recognition and prompt treatment are essential.

HOW MALARIA COMPLEX HELPS

Malaria Complex is a Homoeopathic preparation that works holistically to support the body during exposure to, or the onset of, malaria symptoms.

- ✓ Supports the body's natural immune response*
- ✓ May help reduce the severity and duration of symptoms*
- ✓ Traditionally used for fever, chills and body aches*
- ✓ Suitable for prophylactic (prevention) and acute use*
- ✓ Contains classic homoeopathic remedies used in malaria-support protocols*

* Traditional use.

HOW TO USE IT

It is recommended to eat or drink fifteen minutes before or after taking a Homoeopathic preparation.

Hold in mouth
for 15 seconds
before
swallowing.

Drops can be
taken in a
little water.

Shake well
before use.

PROPHYLACTIC (Prevention):

- Take 10 drops the before you enter a Malaria area.
- Take 10 drops daily while in the Malaria area.
- Take 10 drops daily for 1 week once you have left the Malaria area.

ACUTE (First sign of symptoms):

- Take 10 drops hourly for 6 doses then 3 times daily.

CHRONIC / ONGOING:

- Take 10 drops 3 times daily or as prescribed.

CHILDREN & INFANTS:

- Take half the above mentioned dose.
